Subject: We need the Independent Planning Commission for objective and balanced planning decisions
Date: Thursday, 14 November 2019 2:39:08 PM

Dear Productivity Commissioner,

Let's face it, the quality of our politicians is very poor. This particular government abhors expert advice. It is also in the back pocket of the mining industry (as evidenced by the donations they receive). The less opportunity these people have to compromise our collective welfare the better.

Hence I am writing in support of the NSW Independent Planning Commission continuing as the body that assesses major projects in NSW.

Yours sincerely,

[REDACTED]
